MUSIC AND THE DRAMA

The large holiday crowds that visited the Grand yesterday were treated to something new in the line of comedy when Dave Lewis and a company of seven presented the hilarious three-act farce, entitled "Don't Lie to Your Wife." For a holiday better play could not have been selected. There is a lot in it from beginning to end, and it is full of funny sayings spread throughout the three acts causing continuous laughter.

Miss Linnell is a laugh-maker of the first type, and for the role which he plays he could not be improved upon. As seen as Amos Duple, a German-American, a New York architect, a good husband and a kind father, he is supported by an excellent cast, who contribute to the merrymaking. A young married man, who is a comedian, laughs his way through life, as played by Earl Burnside. A young woman, called Arthur, who is a comedian by nature, who is in love with Mabel, she knows it, is portrayed by Donald Layton.

There is also a press agent in the play, who is a comedian, who is a comedian generally. The character is Leslie Carter, and the player is John Keigh.

Miss Mary Duple, who is her husband's devoted help, is a comedian, who is a comedian generally. The character is Leslie Carter, and the player is John Keigh.

There is also a press agent in the play, who is a comedian, who is a comedian generally. The character is Leslie Carter, and the player is John Keigh.

There is also a press agent in the play, who is a comedian, who is a comedian generally. The character is Leslie Carter, and the player is John Keigh.

CHRISTMAS WAS THE TRUE SPIRIT OF THE SEASON ABROAD

Return Gifts for New Year's

BUSINESS WAS GREAT

Family Reunions All Over the City.

Another year must roll away before Christmas comes again, and before the festivities and joys with the little sorrows of yesterday will be repeated. While Christmas is always a joyful time to young and old, the rich, and generally it is over-ripe because of the worry occasioned them in considering whether the turkey would be done just right or the plan pulled together, the poor because of the worry at the thought that perhaps Santa Claus would not call. In Hamilton, at any rate, few of the poor were missed. Few generally regretted the work, yesterday morning, in an empty stocking. Many of them received lots of things from Old St. Nick, because kind friends were abroad in Hamilton for weeks before Christmas and in which lived such surpluses.

In the commercial world on Tuesday last day—the rush was immense. It was well after midnight when it subsided, and it was probably the greatest Christmas traffic in the history of Hamilton. Beginning last Friday, a constant stream of motor cars, and the ending, poured upon into the retail district from all quarters of the city. It was a good day for the merchants, and the congestion was most noticeable. Only by a slow and steady surge could one make a good pace along the highways, while those on the streets realized anything that they realized that the crowded street was a poor place for contesting at all.

As common as the flowers in May. In the retail district, the merchants were busy, and the congestion was most noticeable. Only by a slow and steady surge could one make a good pace along the highways, while those on the streets realized anything that they realized that the crowded street was a poor place for contesting at all.

Stanley Mills & Co.

STORE WILL BE OPEN SATURDAY NIGHT TILL 10 O'CLOCK

To Be Wide Awake—Sleep Well

—You Can't Do So on a Hard, Lumpy Mattress or Sagging Springs

In these days of hurry and nervous strain, sound and restful sleep is absolutely necessary to every one. One-third of life is spent in bed. Therefore no one should consider the few dollars that a good mattress and spring cost, as anything but a GOOD INVESTMENT for health's sake.

And that naturally brings us to the Stanley Mills' Bedding Department, for good mattresses and springs are the only kind we sell.

Some of the values which have advertised us most extensively are our famous "Kapok" Mattresses at \$20.00 each. These are guaranteed not to get lumpy, and the ticking is of the strongest material, which will wear a lifetime.

Then at \$12.00 we sell the famous "Kapok" Mattresses, which are absolutely without an equal for comfort or service. To every purchaser we give a printed and signed guarantee that the mattress will NEVER grow lumpy from any cause whatever.

Of course we have other good mattresses at lower prices—\$2.95, \$3.75, \$4.50 and \$5.00. And we prefer to sell you an All-Felt or "Kapok" because we know that you'll be more and more pleased with your purchase as every year goes by—and we know you'll not forget the report for the Council on the World Committee has endorsed the report, and if the Council take similar action, as it undoubtedly will, the matter will have to go before the county judge, which is a recommendation of the special committee.

Agnes Adams, running north from Barton street, Trolley—Changed to Chapple street.

North street, west of Victoria avenue, near Ferris street—Changed to Sawyer road.

Prospect street, on the mountain, east of Wentworth—Changed to Webb avenue.

North street and Dundas street, which are a continuation of each other—To be known as Dundas street.

Concession street—Changed to Cannon street.

Appropriate Sermons In Big Up-town Edifices.

When we do not know the date of Christ's birth, Tradition claims it to be December 25th. Tradition is not infallible. However, dates and places cannot be proved. If we knew the exact date of Christ's birth, we might be tempted to idolize it, and we might be tempted to neglect the rest. The fortifications of an accurate date would be a temptation to think that it might be possible for Him to dwell in everyone's heart. It was the incarnation that brought God into man's world, and it was His incarnation that brought communion on earth, and it has ever passed away. Is Christ in you? That is the great question. It is not the date of Christ in time. It is not a doctrine, nor his history, but Christ himself. There is an inner Christ in each of us, and it is our duty to remember the all important, as it lies the apprehension of its spiritual secret; its meaning, its suggestion, its promise, its fecundity, let us not forget to dwell at the manger, and by that let us be sincere in our sacrifices, and in our freedom.

SNOWFALL AT NIGHT.
(By J. C. M. Duncan.)

From the breathless height
Of the burning night,
Flake upon flake of silvery white,
Over the town,
Into the street,
Here at my feet,
Keep sitting down,
Like white-winged dreams from the
upper deep,
Through a stilly atmosphere of sleep.

The paths of the night,
Grow spotted and white,
The stains of day are hidden from sight,
While o'er the town,
Till morning breaks,
The silvery flakes
Keep sitting down,
And make, when the still white night
gives way,
A fountain-math for the feet of day.

proprietor of the Manning House, and, according to the police, he has confessed. The young man had been employed in his possession. He had \$177 in clothing, also two diamond rings and gold watch.

untry, provided for 25,000 the ghosts of the Christmas Past, are kept busy taking it.

COMMERCIAL AND FINANCIAL SECTION

ANNUAL MEETING OF THE UNION BANK OF CANADA HELD AT WINNIPEG, DECEMBER 17, 1912

The Annual Meeting of the Union Bank of Canada was held at noon, Sunday, December 17, at the Head Office, Winnipeg. The meeting was largely attended.

The chairman read the annual report of the directors as follows:

The directors beg to present to the shareholders the following statement of the results of the year ending 30th November, 1912, together with a statement of the assets and liabilities of the Bank:

Forty-eighth Annual Statement, 30th November, 1912

G. H. BALFOUR, General Manager.

During the year the head office of the bank was transferred from Quebec to Winnipeg.

During the past year forty-three branches and agencies of the bank have been opened in the following provinces—Ontario, 18; Alberta, 3; British Columbia, 4; Manitoba, 3; Saskatchewan, 12.

Two branches in Ontario, which proved unproductive, have been closed. The total number of Canadian banking systems which it lends itself to the prompt and efficient service of the business and financial needs of the country.

The customary inspections of the head office and of all branches and agencies of the bank, 17th December, 1912.

THE PRESIDENT'S ADDRESS.

The president, Mr. John Galt, addressed the meeting as follows:

I beg to move the resolution proposed by Mr. William Price, of Quebec, and Mr. R. T. Riley, of Winnipeg, my vice-presidents.

The financial position and the net profits of the past year will, I trust, meet with your approval. The Union Bank has certainly been successful in the past year, and it is, therefore, fitting that I should make a few remarks on the present position of the bank and the policy and the scope of its operations.

During the year the head office of the bank was transferred from Quebec to Winnipeg. Such an important event calls for a review of the progress of the bank in many years and an explanation of the reasons which have led to the present position of the bank.

The growth of our institution is coincident with, and largely due to, the development of the west. The following figures will show how rapid this growth has been:

In the 31st of May, 1904, only eight and one-half years ago, when the present general manager took office, our capital was \$2,500,000, reserve fund \$1,000,000, and total assets \$3,500,000. At the present time our capital is \$10,000,000, reserve fund \$3,500,000, and total assets over \$58,000,000. Our capital has increased over three times, our reserve fund over three times, and our total assets over ten times.

The growth of the bank has been due to many causes, but the chief of these are the following:—

1. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

2. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

3. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

4. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

5. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

6. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

7. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

8. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

9. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

10. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

11. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

12. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

13. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

14. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

15. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

16. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

17. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

18. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

19. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

20. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

21. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

22. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

23. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

24. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

25. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

26. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

27. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

28. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

29. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

30. The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one.

It may, however, prove interesting to you to learn in this connection that, whilst the bank had eighty-four branches in 1904, on the 30th of November, 1912, it had two hundred and eighty-five branches, and the number of officials employed had increased from 1,357 to 1,855, the same as the number of branches.

These figures must bring convincing testimony to the steady progress and expansion made in the past eight years.

On the 31st of May, 1913, the bank has opened over the Great Lakes.

Comparing the figures in the balance-sheet, now under review with those of November 30th, 1911, it will be noted that the deposits have increased by \$10,000,000, namely, from \$48,220,000 to \$58,220,000. These figures are considered very satisfactory and encouraging.

The subscribed capital stock has been fully paid up during the year, and now stands at \$5,000,000.

The reserve fund has been increased by \$3,500,000, bringing it up to \$3,500,000, or 60 per cent of the paid-up capital of the bank.

The total assets are \$58,000,000 greater than in 1911. This is largely accounted for by the increase in the value of the gold and silver reserves.

Bearing in mind the exceptionally heavy expense incurred during the year in the transfer of the head office from Quebec to Winnipeg, and to the opening of no many new branches, we are well satisfied with the result of the year's operations, namely, a net profit of slightly over 14 1/2 per cent on the average capital.

I may say that the full cost of opening a branch is written off at the end of the first half-year of its operations. This is a very heavy item in the expense when a number of branches are opened in any one year.

In the matter of steel chests alone, the bank has up to date invested more than \$500,000, all of which has been paid off its profits.

Coming to the assets, it will be seen that the holding of gold and government notes is \$700,000 more than last year, being additional cash reserves held against increased liabilities in the nature of larger deposits.

Notes and cheques on other Banks in Canada, \$41,918,840, in excess of 1911, merely represent the daily accumulated items for exchange with other banks.

The additional \$700,000 due by agents in the United Kingdom pertains to money loaned in London by our branch there.

Mr. R. T. Riley, that the value of Government, municipal, railway and other debentures and stocks during the year by \$1,000,000, and its loans and bills discounted current by \$800,000, bring these two items up to \$1,800,000 and \$800,000, respectively. This is in the nature of a general statement.

It was then moved by Mr. John Galt, seconded by Mr. William Price and Mr. R. T. Riley, that the report of the directors, now read, be adopted and distributed among the shareholders.

Mr. R. T. Riley spoke as follows:

"I have followed the report as appears, and as you present the 'real' address of the President—like everything else that he has undertaken, it has been well done, and you can accept with confidence every statement made and made well as at the meeting of the directors, now read, be adopted and distributed among the shareholders."

"I am glad to have with us to-day some of our friends from Quebec, Montreal and Toronto, who doubtless hold the promise of many of our western and northern friends. The bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one."

"The fact that the bank has been able to establish a chain of branches in the west, and as railways and other means of communication have been developed, this policy was criticised in earlier days, but it has since been adopted by all the large banks, and the result has been a most successful one."
